

# eXceed Event: User Meeting

## Sharing user stories

### Bruker Life Sciences Mass Spectrometry

## Agenda

### Virtual User and Applications Meeting, Day 2: Metabolomics/Lipidomics Session February 20, 2024

- 09:30 - 10:00**      **Intro and Metabolomics/Lipidomics Update**  
Stefanie Wernisch, Ph.D., Business Development Manager Metabolomics/, Bruker Daltonics, Germany
- 10:00 - 10:30**      **Distinguishing ether-linked phospholipids by ion mobility coupled to mass spectrometry**  
Markus Keller, Ph.D., Principal Investigator, Medical University of Innsbruck, Institute of Human Genetics, Austria
- 10:30 - 11:00**      **Spatial metabolomics toward investigation of tissue heterogeneity and microenvironment**  
Laimdota Zizmare, Ph.D., Postdoctoral Researcher, The M3 Research Center for Microbiome, Metabolome and Malignancy, WSIC, University Hospital Tübingen, Germany
- 11:00 - 11:10**      **Break**
- 11:10 - 11:40**      **SuperM – Combining targeted and untargeted metabolomics into a single platform for target discovery and validation at scale**  
Marco Hennrich, Ph.D., Investigator, Cellzome GSK Heidelberg, Germany
- 11:40 - 12:10**      **Advancing lipidome's quantitative coverage in pre-clinical and clinical samples with targeted and untargeted 4D- tims platforms**  
Laura Bindila, Ph.D., Head of Clinical Lipidomics Unit, University Medical Center Mainz, Institute of Physiological Chemistry, Germany
- 12:10 - 12:30**      **Meet the Experts**  
Viola Jeck, Ph.D., Application Scientist Metabolomics, Bruker Daltonics, Germany  
Nikolas Kessler, Ph.D., Head of Metabolomics Software R&D, Bruker Daltonics, Germany  
Sven Meyer, Ph.D., Applications development scientist, Bruker Daltonics, Germany
