

The banner features a collage of images related to mass spectrometry and virtual events. It includes a person in a lab coat, a molecular structure, a globe, and various scientific data visualizations. A large blue rectangle is overlaid on the left side of the banner, containing the event title and dates in white text.

Virtuelles Bruker Anwendertreffen Massenspektrometrie

Webinare
01. - 05. März 2021

● **Proteomics Session, 2. März 2021, 9.30 - 12.00 CET**

Programm:

- | | |
|----------------------|--|
| 09:30 - 09:45 | Welcome and Introduction of Demo lab
Dr. Scarlet Koch, Dr. Dirk Wunderlich, Bruker Daltonik GmbH |
| 09:45 - 10:00 | What's new in Proteomics
Dr. Christina Bell, Bruker Daltonik GmbH |
| 10:00 - 10:40 | High sensitivity immunopeptidomics and phosphoproteomics on the TIMS-TOF Pro
Prof. Stefan Tenzer, Universitätsmedizin Mainz, Institut für Immunologie |
| 10:40 - 11:00 | Nascent proteomics for following the impact of viral infections on translation
Dr. Uwe Linne, Philipps-Universität Marburg, Fachbereich Chemie, Massenspektrometrie |
| 11:00 - 11:20 | Identification of Protein-Protein Interactions by Cross-linking/Mass Spectrometry on a timsTOF Pro Instrument
Dr. Christian Ihling, Martin-Luther-Universität Halle-Wittenberg, Inst. f. Pharma. - Pharmaz. Chem. & Klin. Pharma., AG Pharmaz. Chem./Bioanalytik |
| 11:20 - 11:40 | Proteomic Exploration of IDH-mutant Glioma
Marius Felix, Universitätsklinikum Heidelberg, Pathologisches Institut, Abteilung Neuropathologie |
| 11:40 - 12:00 | Meet the Experts |

For Research Use Only. Not for Use in Clinical Diagnostic Procedures.
