

A 300: An application focused EPR instrument

Featuring latest digital electronics and microwave technology

Comprehensive Software . . .

- For data acquisition
- For data analysis
- For spectral simulation

Application Dedicated Accessories . . .

- Frequencies from 1 to 34 GHz
- UV system for sample irradiation
- N₂ and He VT systems
- Autosampler
- AquaX sample cell for aqueous solutions
- Marker for quantitative EPR
- Cooling side plates for high temperature
- NMR teslameter
- ENDOR system
