

Extraction

## GenoXtract® fleXT

Automated extraction and PCR setup

Innovation with Integrity

**Seamless workflow in combination with FluoroCycler® XT**

- Walk-away extraction and PCR setup
- Minimal hands-on for efficient workflow
- Accurate and efficient
- Consistent performance across multiple users

IVD

## Walk-away processing

Automated extraction and PCR setup of up to 96 samples.  
Convenient walk-away solution tailored to the dynamic laboratory environment.

## Minimal hands-on for efficient workflow

Robotic handling reduces the need for hands on intervention.

## Accurate and efficient

Barcode tracking from patient samples to PCR results ensures digital traceability. Continuous, active, liquid sensing ensures workflow is more reliable and accurate than ever.

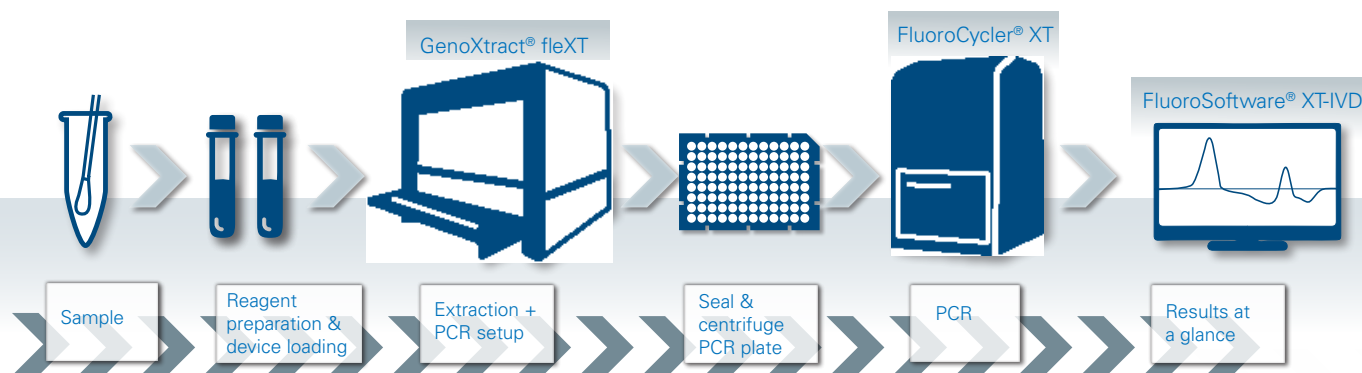

- Minimum hands-on, maximum walk-way
- Digital tracking from patient sample to PCR result
- Integrate into YOUR workflow

## Consistent performance across multiple users

The integrated software\* interface guides user interactions and facilitates LIMS integration for lean and efficient workflow.

\*Please contact your local representative for the current list of supported assays

## From patient sample to data analysis

## Order information

**GenoXtract® fleXT**  
Part No.1883774

No. 1917602 02-2025 Bruker Daltonics

Please contact your local representative for availability in your country. Not for sale in the USA.
