

**The Proteograph Product Suite with trapped ion mobility mass spectrometry for plasma proteomics with unmatched depth and sensitivity**

Shadi Ferdosi

Scientist III, Seer

Dr. Shadi Ferdosi is an experienced Scientist at Seer, working cross functionally between assay development, mass spectrometry, and proteomics data analysis. Dr. Ferdosi joined Seer very early on after finishing her PhD at Arizona State University, exploring the diagnostic and prognostic capacity of blood plasma and serum glycans in different types of cancer.
