

ATOMIC FORCE MICROSCOPY

## Service Support Programs

---

### Probes Discount

Bruker offers comprehensive support to maintain your atomic force microscope (AFM) at peak performance and maximum productivity. A key element of optimizing system performance is selecting the right probe for your application. Bruker is the only major AFM equipment manufacturer that also owns and operates a probes nanofabrication facility, and our broad experience enables us to design and fabricate a wide range of probe types to directly address the evolving needs of AFM users. Our extensive library of probes includes the highest quality silicon, silicon nitride, and specialty probes. Your support program entitles you to a discount on many of these probes.
